

Administrative Rules
Webster City Sump Pump Information and Options
Effective Date 6/13/2011

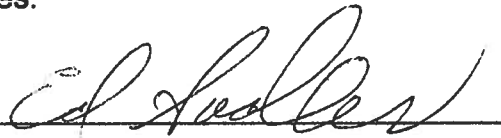

Basic Information:

- All piping must be hard plumbed to the outside of the building. Flexible hose will not be allowed from the sump pump to the exterior wall of the house or building.
- No valves allowing access to the sanitary sewer are allowed in the sump pump outlet line.
- The outlet for all downspouts must be confirmed to not enter the sanitary sewer system.

Sump Pump Outlet Options:

- Drainage of your sump pump will not be allowed to adversely affect any neighboring properties.

Signed City Manager

A handwritten signature in black ink, appearing to read "Ed H. ...", is written over a horizontal line.
